

Roy Meadow wins appeal against being struck off... GOOD!

Friday, 17 February 2006

It wasn't his fault.

It's the fault of the MEDIA (desperate to find a villain).

It's the fault of the SYSTEM (Police go for fake evidence; Lawyers use "experts" who are not experts; Jurors don't understand science so just accept "expert opinion"; Judges allow such confusing and difficult "evidence").

Meadow gave his opinion.

Never more than that.

It was wrongly presented and understood as FACT.

For God's sake, CHANGE THE SYSTEM and don't try to create fall guys.
