

GOGMAGOG - Livin In A F*****G Time Warp

Saturday, 12 August 2006

GOGMAGOG

Decades ago I came up with an idea of putting together a rock supergroup composed of people who had been in bands like Iron Maiden, Def Leppard and so on.

One of the tracks they recorded was my Livin' In A Fucking Time Warp (my original version is on my Box Set) and they did a terrific job on it. If you like rock I think you'll love this.

And play the game - guess who the members were.
